Story of how the “I Feel Great” program got started

Vollara - Meeting the health and financial needs of people in America

Possible monthly and yearly incomes working the "I Feel Great" program:

Start the process by sponsoring 5 Wholesale Buyers or Distributors and teach your group to do the same. A powerful principle of our business is everyone does a little and the total of everyone's efforts combined compounds exponentially which allows everyone to earn a lot. Look what happens if only those who are interested in earning some extra income have **only 5 Active Wholesale Buyers/Distributors each**. This is called the 5-7 Plan. Look below for earnings potential with the 5x5 and 7x7 programs only 4 generations deep. This a Referral Membership Marketing program. Think of it like a Costco or Sam's Club on steroids.

*Possible monthly and yearly incomes are based on an average of 17% of your Power Team with only 40 PPV per person. This does not include purchases of technology and other nutritional products which could substantially add to your income. No other Referral Membership Marketing company has this advantage.
